

DISABLED ACCESS

There are no steps at the entrance of the building giving patients easy access. Our main entrance doors are wide and open via buttons which are placed at an accessible height.

We have a wheelchair for patient's use, at their own risk, should you require one whilst visiting our premises.

We have a disabled toilet.

Guide dogs are welcome at the surgery but we ask that you be aware of other patients and staff who may have an allergy or fear of dogs.

If you require any of our practice literature in an accessible format or another language, please ask.
